

Dr Adrian Clarke **International Outreach Activities**

Past Roles

UK Outreach Activities (2010-2015)

Summer Studentships with the BMSS and RSC (2011-2016).

Adrian is a global Technical R&D Analytical Network leader in an International Pharmaceutical Company and a specialist in separation sciences. He has responsibility for identifying the department's strategic direction & technological needs in analytical chemistry.

His special interests are liquid phase separations (Fast LC/UHPLC, 2D LC, SFC), column characterisation, method development, chiral separations and also analytical control & regulatory strategies, including genotoxic impurities.

Adrian has been a committee member of the Chromatographic Society since 2009. He is involved in International Outreach activities with other societies and groups. He is a co-organiser of the Advances in Clinical Analysis and Emerging Separation Technologies series of meetings.

He has helped organise the following ChromSoc meetings:

TRIAD AstraZeneca R&D Charnwood meeting for the Golden Jubilee 2006.

Advances in LC/MS and Related Hyphenated Techniques, May 2009, Sunderland, UK.

Advances in High Resolution and High Speed Separations, March 2010, AstraZeneca R&D, Alderley Park, UK.

Advances in Clinical Analysis 2012, 2014 & 2016 (planned).

Emerging Separation Technologies 2015.
