

From cradle to grave: The Chromatographic (Analytical) method life cycle (2018)

Thursday 10th May 2018

RSC Burlington House, Piccadilly London, W1J 0BA, UK

Organised by the Chromatographic Society and the Joint Pharmaceutical Analysis Group

Dear Scientist,

the Chromatographic Society and Joint Pharmaceutical Analysis Group are pleased to announce the following one-day meeting:

"From cradle to grave: The Chromatographic (Analytical) method life cycle",

It has a full and exciting topic and speakers program one that has also been purposefully designed to facilitate delegate and exhibitor access to a wide range of scientists, many of whom are leaders in their field.

The meeting seeks to provide a clear insight into successful strategies in critical areas including method development, validation, transfer and life-cycle management in the Pharmaceutical industry and the latest regulatory expectations, specifically QbD and permitted chromatographic method changes according to main Pharmacopoeias.

Ultimately the meeting will provide attendees with a unique means of sharing real experiences with other professionals and will provide excellent networking opportunities. The program is being designed to give attendees key insights into a range of highly interesting topics including multidimensional chromatography, SFC, new detectors, including MS, IMS column technology and their application in profiling and characterisation applications etc.). These will be delivered by highly regarded international speakers from industry, regulators and the chromatography industry. We believe the calibre of the speakers, combined with a fully integrated exhibition and vendor presentation programme, will deliver a highly interesting and well attended event.

The meeting is designed to be a relatively low cost meeting to encourage attendance of delegates from life sciences. ChromSoc student bursaries are available for this event.

If you would like to discuss further, exhibit or present at this event please forward all requests to Adrian Clarke (adrian.clarke@novartis.com).

Poster Session

There will be a poster presentation. Interested presenters should submit an abstract to the organisers **by 20th April 2018**.

Registration Fees

- | | |
|--|------|
| • Chromatographic Society, JPAG, RSC or BMSS members | £150 |
| • Non-members | £250 |
| • Students, unemployed and retired members | £45 |

* members of the RSC or RPS can join JPAG for free, and benefit from discounted prices

Registration link: <http://www.jpag.org/101>

Bursaries

ChromSoc student bursaries are available for this event.

For further details, please visit <http://www.chromsoc.com/academic-support.aspx>

Transport and Access Information

Venue Information

The conference is situated in the **Council Room and Hinshelwood Rooms at RSC Burlington House**, Piccadilly, London, W1J 0BA. Tel: +44 (0) 20 7440 3352.

For further details on the meeting, please visit <http://www.jpag.org> or <http://www.chromsoc.com/ChromsocEvents.aspx>

Yours sincerely

Dr Adrian Clarke and Dr Andrew Teasdale

On behalf of the Chromatographic Society and the Joint Pharmaceutical Analysis Group

Event Programme (DRAFT)

09:00-09:30	Coffee and registration
09:30-09:35	Introduction and Welcome <i>Dr Adrian Clarke (ChromSoc and Novartis Pharma AG, Basel, Switzerland)</i>
09:35-10:15	State of the art stability indicating method development concepts and tools <i>Prof. Melissa Hanna-Brown, Pfizer, Sandwich, UK</i>
10:15-10:55	"QbD: update on current QbD regulatory expectations" <i>Dr Elena Razzano, MHRA, UK</i>
Coffee, exhibition and posters	
11:15-11:50	QbD strategies to build method performance throughout drug development, an industry perspective. <i>Dr Sophie Bailes, AstraZeneca</i>
11:50-12:10	Vendor 1:
12:10-12:30	Vendor 2
Lunch, exhibition and posters	
14:00-14:20	Vendor 3:
14:20-14:40	Vendor 4:
14:40-15:15	SFC: Ready for the QC lab? <i>Dr Claudio Brunelli, Pfizer, Sandwich, UK</i>
Coffee, exhibition and posters	
15:35-16:15	Recent regional HA requirement changes and challenges <i>Dr Stuart Williams, Novartis Pharma, Grimsby, UK</i>
16:15-16:55	Analytical validation and transfer strategies: latest concepts and approaches <i>Dr Katrin Liebelt, Novartis Pharma AG, Basel, Switzerland</i>
16:55-17:00	Close of meeting <i>Dr Andrew Teasdale (JPAG and AstraZeneca R&D, Macclesfield, UK)</i>

Poster Session

There will be a poster presentation. Interested presenters should submit an abstract to the organisers by 20th April 2018.

For further information on the meeting, submission or abstracts, sponsorship or payment details email:
